### **Additional Information:**

Casa Estudio Chaminade was born in 2009, in a social center of a poor neighborhood in the city of Linares, to level the studies of children and young people affected by their right to education. In October 2017 we had our own infrastructure, allowing us in April 2018 to be recognized by the State as an educational center, to serve young people and adults through school leveling. at present we have students between the ages of 15 and 70, making the school a house where you can breathe the air of a family. Our educational center today is a place that has special limitations for people in a situation of high social vulnerability, and who see education as a way out of the circle of poverty.
